Re: Kokomo Opalescent Glass Inc

Dear Joel:

On May 29, 2018, the U.S. Environmental Protection Agency issued a Clean Air Act Section 114 request (114 request) for emissions testing of particulate matter emissions (PM) and metal hazardous air pollutants (HAP) emissions to Kokomo Opalescent Glass Inc (KOG).

On June 27, 2018, representatives of EPA and KOG participated in a call to discuss an alternative for characterizing these emissions. KOG and EPA agreed that KOG would provide a proposal for an alternative to characterize emissions (Proposal) to EPA within 45 days, or by Monday, August 13, 2018.

As we discussed, Dan Schaufelberger is available to discuss the development of the Proposal with KOG's consultant.

At this time, EPA is providing KOG with an extension of time until August 31, 2018, to comply with EPA's 114 request, to allow KOG to develop its Proposal, and EPA to review and respond to KOG's Proposal. Once EPA has had an opportunity to evaluate KOG's Proposal, we can discuss next steps.

If you have any questions, please call me at (312) 886-6237.

Sincerely,

A handwritten signature in blue ink, which appears to read "Mary T. McAuliffe".

Mary T. McAuliffe
Associate Regional Counsel
